Willy Street Coop Members and Customers:

Dear Lynn,

I'm writing in response to your question on how our farm is operated and how our animals (cows, pigs, chickens, and turkeys) are taken care of.

We are certified organic through Oregon Tilth. In the process of applying for animal welfare certification (enclosed find copy of certification) all animals have access to pasture, grass, and sunlight, whenever possible. Also, we have always had pens with straw bedding for resting. We do not believe in confining our animals. All the feed for our animals is certified organic and raised on our farm. We don't use any herbicides, pesticides, antibiotics, or hormones.

If there are any other questions or concerns, please contact us

Thank you,

Rich Lange
