

Willy Street Co-op Pumpkin Bar

L

It's fall ya'll! And you know what that means? Pumpkin EVERYTHING. As someone with a pumpkin pie tattoo, I consider myself a pumpkin dessert expert, and our pumpkin bar is the tops! The cake itself is moist with rich pumpkin flavor, and the frosting is super sweet, the perfect complement. I love it cold, just throw it in the freezer for a minute before enjoying!

Marieke® Gouda

i L

This Wisconsin-made Gouda is a wonderful addition to any cheese board. Marieke® maintains great conditions for all of her cows, and has her creamery across the street from the farm!

Chameleon Black Cold Brew Coffee Concentrate

I'm one of those weirdos who drinks cold brew coffee year round. This brand is concentrated so a little goes a long way. With or without cream, this cold brew is smooth and delicious. It also comes in a glass bottle unlike some brands who use plastic. Boo! Hiss! Happy drinking!

Delicious rich olive oil that's great to dip bread in, drizzle onto a salad, or cook with. In partnership with the Palestinian Agricultural Relief Committee, Equal Exchange works with agricultural co-ops in the West Bank to bring this awesome product to shelves!

Tipi Produce Carrots

L

I absolutely love Tipi carrots! They are sweet, crisp, have the perfect shape (great volume without being too long or huge), and are locally grown. Every year I wait with great anticipation for these beauties to show up in our Produce department. And, carrots are so versatile—they can be used in soups, stir fries, sweet breads, salads, or eaten on their own.

Uplands Cheese Pleasant Ridge Reserve

L

The best alpine style cheese made domestically comes from our back yard! Pleasant Ridge Reserve made by Uplands Cheese in Dodgeville is a local treasure. They prioritize the health of their cows and you can really taste it in the cheese. Its nutty smooth taste goes great on any cheese board and pairs nicely with coffee, a Spotted Cow, or any crisp wine.

Willy Street Co-op Grain Free Chicken Squash Curry

L

This curry is one of my favorite things that we have in the deli! It reheats great and just gets better and better as it sits in the fridge or pot. Its great over white or jasmine rice, and isn't spicy at all compared to some curries, making it good for all palettes.

Tillen Farms Pickled Crispy Asparagus

CRISPY. PICKLED. ASPARAGUS. Most often consumed as a late night snack that I do not feel guilty about. Don't knock it until you try it. Also great served diced on a leafy side salad with an oil and vinegar dressing. Add a fried egg and call it breakfast.
