NIGHTINGALE ICE CREAM SANDWICHES

What's better than just one dessert? Two in one! Ice cream sandwiches offer the best of both worlds: creamy ice cream smothered between two chewy cookies. Nightingale Ice Cream Sandwiches offers gourmet treats that include a baked-from-scratch cookie and 14% butterfat ice cream, meaning the cookies are guaranteed quality and ice cream has a creamy, luscious texture. Founded by Hannah Pollack and her husband Xavier Meers, Nightingale is woman- and veteran-owned. Pollack and Meers are both professional chefs who originally started making these sandwiches at their restaurant. There are a variety of delectable flavors—including banana pudding made with real bananas and chocolate blackout which includes nothing but chocolate. You can find these ice cream sandwiches in the freezer section or at checkout in the Grab & Go freezer. Available at all locations. More information at www.nightingaleicecream.com.
